

May 2014 reminder

Fishing Club May 13, 2014 Meeting 9 AM

This month may confuse some as our meetings are usually the week after the First Friday Mixer. But as always our meeting is the second Tuesday of the month.

This meeting we will focus on getting bait—No I don't mean driving directions to Fishin' Frank's.

- Capt. Nevin will be demonstrating one of the ways to get a good spread when throwing the cast net. We ask all that have cast nets to bring them so everyone can share their experiences and newer members can see a couple technics and sizes of nets.
- A few members have suggested we put together a list for our members to post their willingness to share fuel expense etc. For the opportunity to get out and learn firsthand many of the things we talk about in our meetings. Doug Holmes had offered to help with this so I hope it can be discussed at this meeting. Perhaps we could also add a list of those willing to split area charters or a trip to the keys for a charter fishing trip.
- As always we will be asking you all for your stories from this past month. I know Eric has done well off shore for Red Grouper, Tom Kasprzak is still finding plenty while wade fishing, and neighbor Mike Ricker has caught a bunch of Tarpon off his dock in the evenings.

I had a total knee replacement surgery not quite two weeks ago so there is a good chance Nevin will handle the meeting but I hope you find it worthwhile. Because this is prime time for Guides to be working Tarpon, we have not planned on one to speak at this meeting.

Capt. Doug
